CHRISTOS LIOSIS

Physicist · PhD in Computational Fluid Dynamics · Postdoctoral Researcher & Academic Fellow, University of West Attica

Email liosischristos@uniwa.gr · **Web** liosis.github.io · **ORCID** 0000-0002-4371-480X · **Scholar** scholar.google.com/citations?user=sHupAMQAAAAJ · **LinkedIn** christos-liosis-2b5800100

PROFILE

Physicist working on computational fluid dynamics, with a focus on magnetic nanoparticles, micromixers and Tesla valves for water purification and biomedical applications. 3D simulations in OpenFOAM combined with experiments, additively manufactured sensors and machine learning. Member of the Flow Analysis and Simulation Team (UNIWA) since 2015.

EDUCATION

2023 **PhD in Computational Fluid Dynamics**
University of Thessaly, Department of Civil Engineering
Thesis: *Modeling for Water Purification from Heavy Metals Using Microfluidic Devices*.
Supervisor: Prof. T. Karakasidis

2018 **MSc in Energy Technology**
Heriot-Watt University – University of West Attica
Thesis: *Numerical study of nanoparticles mixing in micropipes*. Supervisor: Prof. I. Sarris

2017 **MSc in STEM Education**
School of Pedagogical and Technological Education (ASPETE)
Thesis: *Developing S.T.E.M. experiments using Arduino, Matlab and their didactic analysis*

2015 **Postgraduate Diploma in Materials Science for Advanced Technologies**
Universities of Ioannina, Patras and Crete

2014 **BSc in Physics**
University of Ioannina

RESEARCH EXPERIENCE

2024–now **Postdoctoral Researcher**
Department of Mechanical Engineering, University of West Attica
Models for guiding, mixing and separating magnetic nanoparticles for water purification and biological applications.

2019–2023 **Doctoral Researcher**
Department of Civil Engineering, University of Thessaly
Heavy-metal removal with magnetic nanoparticles in passive and magnetically driven mixers (OpenFOAM, ParaView).

2015–now **Member, Flow Analysis and Simulation Team**
University of West Attica (fluids.uniwa.gr)

2014–2018 **Master Researcher**
Department of Energy Technology, University of West Attica
Mixing of magnetic nanoparticles under external magnetic fields (OpenFOAM).

TEACHING

2023–2026 **Electromagnetism and AC Circuit Analysis (NMB.206)**
Department of Biomedical Engineering, University of West Attica · spring semesters

2024–2025 **Introduction to Fluid Dynamics (MM109E03)**
Department of Mechanical Engineering, University of West Attica

RESEARCH PROJECTS

2026–2028 **SEEU – Small enhanced European UAS**
European Defence Fund, EDF-2024-DA-C4ISR-SEEU-STEP

2025–2028 **Verdedrive**
HORIZON-MSCA Staff Exchanges 2023
By-products for eco-friendly and sustainable diesel fuel.

2024–2027 **PROMATAI**
HORIZON-MSCA Staff Exchanges 2022
Processing of hybrid materials and nanomaterials using AI algorithms.

2024–2027 **ST3AM**
Erasmus+ KA220-HED
Gender balance, education reformation and mentorship in STEM.

2023–2026 **AGRHI**
Erasmus+ CBHE, ERASMUS-EDU-2023-CBHE-STRAND-2
Agricultural Revitalization in Higher Education Institutions of Asian Countries.

2020–2021 **Magnetic navigation of nanoparticles in real networks of human arteries**
MIS 5048923

AWARDS & SCHOLARSHIPS

2025–2026 **ARIS allocation (GRNET) – Computational Physics Networks**
150,000 CPU core hours and 50,000 GPU hours

2024–2025 **ARIS allocation (GRNET) – Homogeneous Turbulence Model**
100,000 CPU core hours

2023 **Young Researcher Award**
ICRAFMN-2023, Bengaluru, India

2021 **Best Paper Award**
Int. Conf. on Drug Delivery Nanosystems for Biomedical Engineering Applications, Rome

CONFERENCE PRESENTATIONS & POSTERS

1. G. Sofiadis, V. Perivolioti, **C. Liosis**, I. Sarris, C. Manopoulos, A. Raptis and E. Karvelas, «Uncertainty quantification of steady-state flow in a three-dimensional arterial model (in Greek)», 13th Panhellenic Conference on Fluid Flow Phenomena (ROI 2026), Volos, Greece, 4–5 December 2026.
2. **C. Liosis**, D.N. Pagonis, T. Karakasidis and I. Sarris, «ATtiny-Based Laser Control System for Engraving 3D-Printed Sensor Structures», Micro Nano & Chips Tech 2026, 13th International Conference on Micro-Nanoelectronics, Nanotechnology and MEMS, Athens, Greece, 15–18 October 2026.
3. K. Moustris, **C. Liosis**, I. Sarris, G. Spyropoulos, N. Polychronopoulos, G. Sofiadis and E. Karvelas, «Machine Learning-Based Prediction of Feed Section Length in Single-Screw Extruders Using Rarity-Weighted Data Augmentation on a Small Industrial Dataset», 1st MAHSA International Conference on Sustainable Engineering, Built Environment, and Information Technology (MI-SEBIT 2026), Malaysia, 25–26 September 2026.
4. J. Lawen, V. Gallelli, **C. Liosis**, I. Sarris and S. Peppa, «Automatic Voronoi-Based Meshing for CFD Analysis of Passive Flow Control in Diodic Pipes», 1st International Conference on Monitoring and Control of Water Systems (MOCWS 2026), Chalkida, Greece, 28–29 May 2026.
5. G. Sofiadis, **C. Liosis**, T. Karakasidis and I. Sarris, «Reynolds Number Effect of the Turbulent Micropolar Open Channel Flow with Sediment Transport», 6th EWaS International Conference, Thessaloniki, Greece, 11–14 May 2026.
6. V. Krasinskyi, K. Bajer, A. Bartnicki, L. Dulebova, E. Karvelas and **C. Liosis**, «Projektowanie i optymalizacja uniwersalnej strefy zasypu jednoślimakowej wytłaczarki (in Polish)», 22nd Engineering Polymers and Composites, Silesian University of Technology, Szczyrk, Poland, 21–24 October 2025.
7. K. Moustris, N. Polychronopoulos, P. Pimenidou, G. Spyropoulos, I. Sarris, G. Sofiadis, **C. Liosis**, E. Karvelas and S. Peppa, «Application of Artificial Intelligence and Machine Learning Classification Models for Predicting Screw Geometry Parameters in Single-Screw Extruder», 14th International Conference on Mathematical Modeling in Physical Sciences, 20–23 October 2025.

8. D.N. Pagonis, D. Zagklaras, A. Vailas, I. Iakovidis, S. Dimitrellou and **C. Liosis**, «Additively Manufactured Thermal Sensor for Local Temperature Monitoring: Experimental and Numerical Validation», 22nd International Conference on Manufacturing Research, University of Birmingham, UK, 10–12 September 2025.
9. T. Karakasidis, E. Karvelas, G. Sofiadis, **C. Liosis** and I. Sarris, «Nanoparticles and Blood Mixing in Microfluidic Reactors using Computational Fluid Dynamics», 21st International Conference on Nanosciences & Nanotechnologies (NN24), Thessaloniki, Greece, 2–5 July 2024.
10. **C. Liosis**, G. Sofiadis, E. Karvelas, T. Karakasidis and I.E. Sarris, «Tesla Valve as Micromixer for Water Purification with Magnetic Fe_3O_4 Nanoparticles», International Conference on Recent Advances in Fluid Mechanics and Nanoelectronics (ICRAFMN-2023), Bengaluru, India, 12–14 July 2023 – **Young Researcher Award**.
11. **C. Liosis**, G. Sofiadis, E. Karvelas, T. Karakasidis and I.E. Sarris, «Simulations of Tesla Valve Micromixer for Water Purification with Fe_3O_4 Nanoparticles», 5th EWaS International Conference, Naples, Italy, 12–15 July 2022.
12. E. Karvelas, **C. Liosis**, T. Karakasidis and I.E. Sarris, «Magnetic Navigation of Nanoparticles for Drug Delivery inside Carotid Artery Under the Cardiac Cycle», XXXV Panhellenic Conference on Solid State Physics and Materials Science, NCSR «Demokritos», Athens, Greece, 26–29 September 2021.
13. E.G. Karvelas, **C. Liosis**, A. Theodorakakos and T.E. Karakasidis, «Magnetic Navigation of Nanoparticles Inside a 3D Carotid Model», International Conference on Drug Delivery Nanosystems for Biomedical Engineering Applications, Rome, Italy, 18–19 January 2021 – **Best Paper Award**.
14. E.G. Karvelas, **C. Liosis**, T.E. Karakasidis and I.E. Sarris, «Mixing Nanoparticles and Contaminated Water Under Different Velocities for Optimum Heavy Metal Ions Adsorption», 4th EWaS International Conference, Greece, 24–27 June 2020.
15. E.G. Karvelas, **C. Liosis**, T.E. Karakasidis and I.E. Sarris, «Particle mixing using magnetic fields in micropipes (in Greek)», 12th Panhellenic Scientific Conference of Chemical Engineering, NTUA, Athens, Greece, 29–31 May 2019.
16. E.G. Karvelas, **C. Liosis**, T.E. Karakasidis and I.E. Sarris, «Mixing of Nanoparticles in Micromixers Under Different Angles and Velocities of the Incoming Water», 3rd EWaS International Conference, Lefkada, Greece, 27–30 June 2018.
17. **C. Liosis**, A. Papadopoulou and E. Liosi, «Simple pendulum and measurement of the acceleration of gravity using video analysis (in Greek)», 5th Neos Paidagogos Conference, Eugenides Foundation, Athens, Greece, 28–29 April 2018.
18. **C. Liosis**, «Use of Arduino in vehicle braking (in Greek)», 5th International and Interscientific Conference eLife 2016, Plastiras Lake, Greece, 23–26 June 2016.

ACADEMIC SERVICE

- **Guest Editor**, *Symmetry* (MDPI), special issue «Advances of Symmetry/Asymmetry in Fluid Dynamics: Engineering Applications and Marine Hydrodynamics» (2025)
- **Language Editor**, Kallipos Open Academic Editions (2024): *Computational Fluid Dynamics* (Sarris, Karvelas & Sofiadis); *Embedded Systems Implementation for Networks and Applications in Linux* (Milionis); *Computational Chemistry and Molecular Modeling* (Sigalas, Koukaras & Charistos)
- **Co-supervisor**, Erasmus+ traineeships UNIWA – CESI (France): J. Kolo (heat exchangers for heat pumps), A. Ekelle (energy balance of non-interconnected islands)
- **Undergraduate thesis committees**, University of West Attica (wind turbine CFD; Tesla valve performance; ML for aerodynamic coefficients)

CONTINUING EDUCATION

06/2023 **BioMed AI Summer School**
Academy of Athens

2020–2021 **Expert in Finite Element Analysis**
National and Kapodistrian University of Athens

2017 **LaTeX; Programming with Python**
University of Piraeus; Aristotle University of Thessaloniki

2016 **Arduino**
Hellenic Physical Society

11/2015 **National Training Programme of Greek Physicists**
CERN

SKILLS

OpenFOAM, ParaView, gmsh, Finite Element Analysis, Python, Matlab, Mathematica, Machine Learning, LaTeX, Arduino, 3D printing, CAD

LANGUAGES & MEMBERSHIPS
